

Forget about inconvenient frozen or freeze-dried tumor marker controls, CLINIQA® has channeled its proprietary liquid stabilization technology into producing the first "True Liquid" Tumor Marker Control. This tri-level human serum based control is stored at 2-8°C and is ready-to-use straight out of the refrigerator. With CLINIQA quality "Built-In", a 2-year shelf life, and no special shipping requirements, this is the ideal product for your QC Program.
